

CNC Machinist

Employer

Galaxy Technologies
1111 Industrial Road
Arkansas City, KS 67005

Job Details:

Status: Full Time

Position: CNC Machinist

Location: Winfield

Salary: \$18.00 to \$22.00 Hourly

Job Purpose:

Are you ready to shape the future? Join Galaxy Technologies as a CNC Machinist and be part of a team that transforms aluminum metal into high-tolerance finished products using cutting-edge 3-axis CNC Haas machines. As a CNC Machinist at Galaxy you'll play a pivotal role in producing top-quality aerospace components while working in a dynamic and innovative environment.

Essential Functions include the following. Other duties may be assigned.

- **Machine Setup and Operation:** Prepare and set up CNC Haas machines, load programs, and execute machining operations according to set-up documents and blueprints.
- **Precision Machining:** Read and interpret blueprints to determine hole placements, depths, and diameters, ensuring tight tolerances are met. Perform basic code editing and adjust speeds and feeds as necessary to optimize machining processes.
- **Quality Assurance:** Conduct part inspections during and after machining, ensuring adherence to specifications. Perform cleaning and deburring of finished parts to maintain high quality standards.
- **Efficiency and Multitasking:** Run multiple machines when required, maximizing productivity while maintaining attention to detail. Maintain a clean and organized workspace to facilitate smooth operations.
- **Continuous Improvement:** Cross-train on various machines and processes to broaden skill set and contribute to overall team effectiveness.

- **Safety Compliance:** Wear proper personal protective equipment (PPE) at all times and uphold safety protocols to ensure a safe working environment.
- **Team Collaboration:** Assist and support colleagues as needed, fostering a collaborative and positive work environment.

Additional Responsibilities:

- Track estimated versus actual hours spent on jobs to optimize workflow and efficiency.
- Willingness to work overtime when necessary, although overtime is not mandatory.
- Return all company tools to their designated locations after use to maintain organization and efficiency.

Qualifications and Requirements: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- High school diploma or GED equivalent.
- Minimum of 2 years of basic CNC machinist experience, including machine set-up.
- Proficiency in reading and interpreting blueprints and set-up documents.
- Experience running Haas machines using Fanuc controls.
- Understanding of basic G-codes and ability to edit programs as needed.
- Knowledge of speeds and feeds adjustment for optimal machining.
- Familiarity with micrometers and other measurement devices for quality assurance.
