

Weld Shop Manager/Certified Weld Inspector

Employer

Galaxy Technologies
1111 Industrial Road
Arkansas City, KS 67005

Job Details:

Status: Full Time

Position: Weld Shop Manager

Location: Winfield

Salary: \$80,000 to \$100,000 Annually

Shape the Future with Galaxy Technologies!

As the **Weld Shop Manager** at Galaxy Technologies you will play a crucial role in managing day-to-day operations and ensuring compliance with customer and industry standards. You'll be at the forefront of innovation, driving excellence in fabrication processes and fostering a culture of continuous improvement.

Key Responsibilities:

- **Interpretation and Compliance:** Interpret customer and AWS codes, processes, and procedures for the shop floor and Build Team. Ensure adherence to quality standards and regulations.
- **Planning and Coordination:** Assist in planning and coordinating fabrication activities within the Build Team, ensuring efficient workflows and timely project completion.
- **Training and Certification:** Organize and conduct training sessions, maintain weld certifications, and contribute to the development of the Welder Grade Scale to elevate team skills and capabilities.
- **Technical Expertise:** Demonstrate advanced skills in interpreting aerospace drawings and specifications. Operate various fabrication equipment, precision measurement tools, and hand tools with precision and efficiency.
- **Quality Assurance:** Perform Non-Destructive Testing (NDT) including Dye Penetrant and Magnetic Particle testing. Maintain CWI accreditation and perform CWI level inspection as required.

- **Communication and Collaboration:** Liaise with upper management on rework specifications and deadlines. Utilize ERP systems for scheduling and communication purposes. Foster a culture of safety and efficiency through effective communication and training.
- **Problem Solving:** Evaluate and address issues promptly, determining cost-effective solutions to minimize downtime and ensure optimal workflow.
- **Continuous Improvement:** Contribute to team meetings and actively participate in continuous improvement initiatives. Promote a positive, team-oriented environment and encourage best practices.

Additional Responsibilities:

Assist Estimating in the quoting process for potential new projects.

Familiarize yourself with Quality Management System requirements relevant to the department.

Qualifications and Requirements:

- CWI Certification or ability to obtain certification promptly is required.
- Minimum of five years of experience as a Weld Inspector in an aerospace environment
- Proficiency in using advanced measurement and test equipment.
- Excellent written and verbal communication skills.
- Strong interpersonal skills to build and maintain effective working relationships.
- Familiarity with operating hoists, forklifts, and department equipment.

Schedule: Monday to Friday 7am to 3:30pm - hours will occasionally fluctuate
