We are growing! - Come be part of our story!

Position Summary:

We are searching for that unique individual to join our team as the Fire Test Lab Technician. Under the direction of the Director of Engineering, the Full-Time Fire Test Lab Technician performs combustion performance testing on industrial and commercial burner products that are manufactured on site.

Responsibilities:

- Read and understand wiring diagrams, schematics, and blueprints.
- Assemble and mount burners to boilers for testing.
- Pipe oil lines, gas trains, feed water systems and steam headers to boilers.
- Perform mounting and reading of test instruments, recording readings and test data with knowledge of normal parameters. Maintain well organized written reports and project records in such a manner that the results can be analyzed and used by others.
- Maintain a neat, clean, orderly and functional work area at all times, ensure compliance with all safety rules and standards.
- Assist other Fire Test Lab Technicians in any lab, service and R&D functions as required.
- Other duties as assigned.

Requirements

- 
- Minimum of 1-2 years of electrical panel wiring, wiring diagram/blueprint and/or schematic experience.
 - HVAC or related field experience a MUST.
 - Trade or technical school education in HVAC a plus.
 - Proven mechanical abilities.
 - Basic computer knowledge.
 - Ability to read and understand wiring diagrams, schematics, and blueprints.
 - Experience with hand tools, both manual and power driven.
 - Good written and oral communication skills
 - Ability to work in a fast- paced environment.
 - Ability to work in a team centered environment.
 - Great customer service skills
 - Ability to work overtime as needed.

Benefits:

- Health/Dental/Vision/HSA
- Life/STD/LTD
- 401(k) with matching
- Parental Leave
- Vacation and quarterly PTO days
- Profit Sharing
