

Environmental Health & Safety Manager

Employer

Western Industries Plastic Products LLC
22829 Smyer Rd,
Winfield, KS 67156
620-221-9464

Job Description

Your Environmental Health and OSHA/Safety expertise is needed at Western Industries -- The Environmental Health and Safety (EHS) Senior Manager will be responsible to provide safety and risk management leadership, teamwork, coordination and expertise across our multiple building plastics manufacturing, assembly and logistics business to share best practices and/or preferred procedures. This position will ensure compliance with federal, state, and local laws/regulations, as well as monitor and/or improve internal policies, procedures and safety training with the assistance of an experienced safety department and management team. Join a stable yet growing company in plastics manufacturing where you can make a bigger impact while earning excellent compensation and benefits.

Due to growth, Western Industries, a trusted name in blow molding for over 30 years, seeks a Senior Environmental Health & Safety Manager for their facility in Winfield, KS.

Company will pay relocation and/or travel costs for qualified applicants to interview in-person and tour the facility

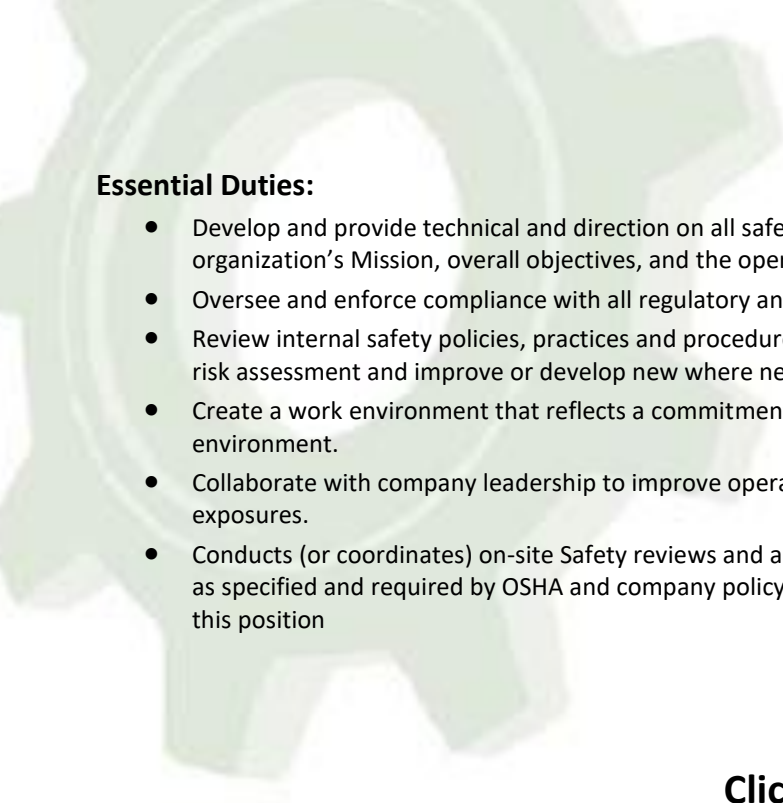

If you have a degree in Occupational Health and Safety, extensive OSHA training, and leadership experience, we want to hear from you!

Some of the benefits of joining the team:

- Excellent Compensation: Competitive Pay based upon experience and education
- Some of the best benefits available – Western offers 100% company paid long and short term disability and life insurance. Other benefits with employee contribution include medical plans with 80/20 coverage and your choice of \$500, \$1,000 or \$1,500 deductible, dental, vision and health/dependent care FSA, retirement with match, PTO, and 9 paid holidays.
- Facility technology – Our Company has an extensive fleet of retrograded intermittent extrusion blow mold machines, as well as a multitude of fixtures, machinery and robotics to support our secondary operations.
- Company stability – Western Industries has been in business for 34 years and continues to grow, as we have doubled in the last two years! Stability comes from the diverse array of industries served, including product solutions in furniture, sporting goods, medical, agriculture, lawn and garden, material handling, and more.

Minimum Requirements:

- Bachelor's or Master's Degree in Occupational Health and Safety
- Must have extensive OSHA training and applicable knowledge; Certifications required
- At least 3 years of safety management and/or leadership experience

Essential Duties:

- Develop and provide technical and direction on all safety policies and programs which bear critical importance to the organization's Mission, overall objectives, and the operation of its business.
- Oversee and enforce compliance with all regulatory and safety compliance requirements
- Review internal safety policies, practices and procedures to ensure they are current and appropriate; conduct hazard and risk assessment and improve or develop new where necessary.
- Create a work environment that reflects a commitment to protecting the health and safety of all employees, and the environment.
- Collaborate with company leadership to improve operational efficiencies and reduce Health and Safety related risks and exposures.
- Conducts (or coordinates) on-site Safety reviews and audits all locations to ensure compliance with safe working operations as specified and required by OSHA and company policy and procedure and emerging technical and professional aspects of this position
