Galaxy Technologies
1111 Industrial Road
Winfield, KS 67156
620-221-6262

Job Details:

Position Type: Full Time

Position: Management

Location: Winfield

General Description

The Industrial Engineer is responsible for monitoring current operations to determine more efficient production processes. This position will consist of 25% multi-state travel during the first year.

Essential Functions:

*Other duties may be assigned.

- Manage facility relocation. Full responsibility for managing all detail.
- Evaluate new facility location and design layout.
- Improve production processes and workflows to maximize efficiency using lean and 5S practices and standardization techniques.
- Reduce waste and rework in all production areas via use of DMAIC, 6 sigma and lean manufacturing techniques, identifying and implementing proper KPI's to show/prove improvements that are being accomplished.
- Evaluate options to implement technological improvements in production processes, specifically automation options focus primarily on labor reduction and/or speed of production.
- Review production schedules, processes, specifications, and related information focused on current ERP and proper use and alignment of the tools already existing in the facility to better align the flow of product through the shop from inception of PO to shipment of final product.
- Design control systems to minimize costs and production issues.

Qualifications and Requirements: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Degree in industrial engineering or related field required.
- Relevant work experience.
- Advanced knowledge of production machinery, processes and standards.
- Critical thinking and problem-solving skills.
- Strong communication and presentation skills.
- Troubleshooting skills and attention to detail.
- Documentation and organization skills.
- Proficiency in MS Office and Solid modeling software.
- Lean manufacturing, 5S, 6 Sigma and theory of constraints are a plus

Wages comparable to experience. GALAXY is a successful, growing company with excellent benefits including 401(k), Medical, Vision, Dental, and Company paid AD&D, LT disability, & life insurance.
