a golden state foods company

Maintenance Technician

Employer

KanPak
1016 S Summit St,
Arkansas City, KS 67005
620-442-6820

Job Description

KanPak®, a golden state foods company, is a global leader in the development and manufacturing of the very best beverage, yogurt and dessert solutions. Aseptic technology is at the heart of many products we create, allowing all KanPak® products to ship and store without refrigeration for up to 12 months, but it's our state-of-the-art beverage manufacturing capabilities and exceptional customer service that really set us apart from competitors.

Coffee beverages, creamers, yogurt, frozen desserts, and specialty beverages – no matter what kind of product you're looking for, we can deliver. Our aseptic processing and packaging makes our solutions more convenient, efficient and environmentally friendly.

We are seeking an energetic, skilled Maintenance Technician for openings in our facility in Ark City, KS.

Main Functions:

Maintenance Technicians have the job of keeping our facility running at the very peak of performance. The duties they perform are invaluable to us, because without them our operations might grind to a halt.

Primary Objectives:

- **Coordinate GSF Quality activities and operations to meet objective for quality, food safety, regulatory compliances, cost, safety, and customer satisfaction at KanPak**
- **Participate in formulating and administering division's short- and long-range goals and objectives for business growth**

- 
- Coordinate with GSF Quality, Safety and Operations groups to meet the standard objectives for quality, food safety, integrity, regulatory compliances, cost, safety, and customer satisfaction at KanPak.
 - Participate in the administration of KanPak's short, and long-term goals and objectives for business growth.
 - Troubleshooting complicated mechanical systems and monitoring operations throughout the facility.
 - Perform preventative, and predictive maintenance of process equipment throughout the facility.
 - Troubleshoot electrical, electronic, hydraulic, steam, and pneumatic equipment.
 - Troubleshoot minor plumbing, building repair, and upkeep.
 - Responsible for monitoring performance, recognizing deviation from "normal operation" and rectifying the issues discovered.

EDUCATION & EXPERIENCE:

- High School / GED required; Associate degree preferred
- Mechanical aptitude to disassemble and reassemble all types of equipment.
- 2-3 years' experience or equivalent employment; industrial maintenance experience preferred

Knowledge, Skills, and Abilities:

- Knowledge of electro-mechanical, pneumatics, PLC controllers, and process instrumentation is preferred.
- Ability to read and interpret schematics and drawings.
- Must have excellent communication skills.
- Basic computer skills. (Email, Word, and Excel)
- Must have strong problem-solving skills.
- Must be a self-motivated individual.
- Ability and willingness to work well with others and be a team member.
- Must have safe work habits.
- Must show enthusiasm, initiative, and pride in work.
- Ability to move up to 50 lbs. occasionally, use hands and fingers regularly, and stand for 8+ hours per day.

Skill and ability to:

- Serve as a team member, lead as the team role warrants
- Work collaboratively with production for optimum efficiency
- Maintain confidentiality of highly sensitive information
- Time Management/Multi-tasking.
