

# Public Health Update

## What's New in Public Health?

### Back to School Month

July is almost over and Back to School month is nearly here!

The new school year is just over the horizon, and many schools and daycares require children to have an annual check-up and to be up-to-date on their immunizations.

The Health Department provides the full spectrum of immunizations and our public health nurses can also administer your child's yearly health assessment.

Don't wait until the last minute! Give us a call and get your appointment scheduled today!
